AFTER EARLY DEPRESSIONS GEN-ERAL ADVANCES WERE SCORED.

Heavy Buying Movement in the Afternoon-Local Grain Markets Dull and Little Patronized.

At New York, yesterday, money on call was easy at 1 per cent.

Prime mercantile paper, 3/251/2 per cent. Sterling exchange was dull and heavy, with actual business in bankers' bills at \$4.8614@4.8616 for demand and at \$4.8514@ 4.851/2 for sixty days; posted rates, \$4.851/2@ 4.87; commercial bills, \$4.81@4.8414.

Silver certificates, 651/46661/c. Bar silver closed at 65 %c per ounce; Mexican dollars, 52%c. At London, bar silver was 30 3-16d. Total sales of stocks yesterday were 176,745 shares, including: Atchison, 2,800; Su-

gar, 41,300; Burlington, 8,300; Chicago Gas, 5.400; Distilling, 7,000; General Electric, 2,-300; Louisville & Nashville, 4,900; Northern

Pacific preferred, 3,100.

The share speculation on the Stock Exchange opened fairly active, and during the morning the business done was in moderate volume. During the last hour a very heavy business was done. A selling movement in Sugar was quickly developed, based on a rumor that the dividend rate for the current quarter was to be reduced, and as a result the stock, which had advanced 1/2 at the opening, fell 11/4. The general list recorded a sympathetic reaction, but before 11 the market had recovered its tone and again took an upward turn. It was not until near noon that the advance was checked and prices eased off a fraction. At about 2 o'clock a very general buying movement was set in motion, the motive of which was not disclosed, except that the purchasers were members of professional cliques which have recently been endeavoring to bull the market. The reports of the railways for August showed an improvement in gross earnings, and this fact helped the advance, which ranged from 1/4 to 21/8, the latter in P., C., C., C. & St. L. preferred, the common advancing 116 per cent. Western Union was in better buying than usual, the purchases being made in anticipation of a good report at next week's quarterly meeting. The shorts also took occasion to cover, and as a result the stock moved up 2 per cent, closing within 1/8 of the highest point. General Electric was bought on Boston orders, making a gain on the day of 1%. Sugar recovered during the afternoon from its early depression, and the shares sold up 2% to 106%, with a final reaction of %, making a net gain of 11/2. The other more important advances were: United States Cordage, 11/2; United States Cordage preferred, 1; Illinois Central, 1½; St. Paul, 1¼; Rock Island, 1; Burlington, 5, and Northwest, ½; Lake Erie & Western, Canada Southern and Lead preferred, 11/4; C., C., C. & St. L., 1. Some ew shares recorded declines, including New York, Chicago & St. Louis seconds preferred, 2%, and Louisville & New Al-

bany, % per cent. The bond market was strong throughout the day and unusually active, the sales reaching the large total of \$2,255,500, the Reading issues, Northern Pacific seconds and Northern Pacific consols, Chesapeake & Ohio generals and Kansas & Texas fours being the most prominent in the dealings. The more important advances are: Northern Pacific third coupon trust receipts, 1/2; Northern Pacific collateral trust sixes, 1; Northern consols, fives, 1/2; Toledo, Peoria & Western firsts, 1. Government bonds were firm. State bonds

LOCAL GRAIN AND PRODUCE. Trade Shows a Little More Activity,

with Prices More Stendy. On the wholesale streets and on Commission row trade, yesterday, was more active than last week, and as the month advances a further improvement is looked for. In the grocery line everything carries a firm tone. Sugars are still advancing in their tendency. Canned goods are now being inquired for, and in sales of fancy groceries more is doing than for some months past. In the dry-goods line on certain lines, ginghams being of the number, prices are advancing, while in other lines lower prices rule. Poultry, on increasing receipts, is weak. Eggs were firmer, shippers paying 13 cents and packers 14 cents for fresh stock. Butter moves slowly, unless choice. On Commission row, yesterday, was a fairly busy day. The purchases of fruits for canning are larger and for most kinds of vegetables there is a better demand. The provision market is active, stocks light and prices upward in tendency. But little was doing yesterday in the local grain market. Attendance on 'Change was small, bidding dull and transactions few.

CORN RULED PRICES

ITS STRENGTH BROUGHT ABOUT ADVANCES IN WHEAT AND OATS.

At Most Any Stage of the Day a Few Selling Orders from the Country Could Have Knocked Things.

CHICAGO, Sept. 4.-Corn hesitated at the start to-day, but, buoyed by crop damage reports, it advanced later and wound up strong, dragging the other markets up with it. May corn closed to higher, December wheat %c higher and September oats 1/2c higher. Provisions finished strong at liberal advances all around.

The price of wheat during the first half hour of the session gave evidence of little change in the ideas of the speculators regarding its value. Five minutes after the opening the early orders from country customers appeared to be exhausted and the price of December, which for three minutes had ruled about 4c higher than Saturday's closing price, returned to about that level again. In the course of the next fifteen minutes there was another slight rise. The receipts at Minneapolis constituted one of the features of the situation which tended to the revival of confidence. Since Saturday the receipts at the point named were reported as amounting to only 553 cars. The result of an experiment made by a well-known Board of Trade man in feeding wheat to hogs on his own farm, showing that he realized 90 cents per bushel for his wheat, was also a bull factor. The market began to weaken again when the figures of the visible supply statement were received. December, which started at 56%c, sold off to 56%c and re-covered again to 57c, reacted to 56%@ 56%c when the visible was indicating an increase of about 2,000,000 bushels. When the amount of the increase was found to be 2,178,000 bushels the market recovered a trifle on some covering purchases by the scalpers on their finding that outside selling orders were not forthcoming, even with such tempting inducements. The strength in corn near the end of the session put some fresh vigor into the action of the longs in wheat and caused an advance to a fraction above its previous highest point, 57%c being quoted for an instant, closing at 57c. Corn did not show a great deal of

strength immediately at the opening, but it did later, and it kept the shorts on the broiler during the greater part of the ses-sion. In addition to the Missouri report issued yesterday, which reported 20 points deterioration in condition during August it was rumored but not confirmed, that the Illinois State report had been issued and was equally bullish. The weekly local bulletin for Iowa was received by a house here who said that it reported 50 per cent. of the crop cut for fodder in many of the southern counties of that State, and that as high as 80 per cent, of it had been similarly treated in some other countles. That was perhaps the main reason for the strength which was developed in corn. Shorts came in rather freely, but a good number of the big local shorts stood pat. There was a decrease of 232,000 bushels in amount on ocean passage. The visible supply increased 114,000 busnels, compared with an increase of 177,000 bushels last year. May corn, which on Saturday closed at 53c, started irregularly at from 52%@53%c. Those were the lowest prices of the day. It rose on the first swell to 54c, and after reacting to 53%c, it advanced again to 54c, and some few sales at as high as 54%c,

closing at 54c. To-day almost everything in oats was bearish. The viscole supply showed a very large increase, 1,106,000 bushels, and there was a good disposition to sell and but a scant inclination to purchase in any good-sized lots. But the strength in corn was more influential than all other factors and the market was firmer. The session was active at times, and during the day guite a fair business was transacted, mostlocal, however. September started steady at 29%c, sold up to 29%c, was weak-ened slightly by the visible supply and sold back to 291, rallied again and closed at 29%c bid. Dearer hogs, higher corn and buying by the Anglo-American Packing Company were the principal reasons given for another considerable advance in the price of provisions. The market opened firm, gradually improved and in the end it was quite strong at the highest prices of the day. Compared with Saturday night, January pork is 221/2c higher, lard 25c higher and ribs 10c higher.

CHICAGO, Sept. 4.-No change of importance was noted in prices of cattle, The scattering lots of prime steers of-fered were taken at fully steady, prices and the more common grades, while generally quoted wear, were not perceptibly lower. Canners' stuff continues in good demand and is selling at relatively better prices than are being paid for the better grades of cows and bulls. The day's run consisted of 3,000 natives and 2,500 Westerns. The former were quoted at \$1.25@5.90 and the latter at \$1.50@4.75. From \$2@4.25 bought the major portion of the former and \$2.50@4 the bulk of the latter. The offerings included many common cattle for which buyers could not be found at satisfactory prices yesterday, but a good clearby noon to-day and the

ince was

close was fairly firm. Hog prices were up another point. They advanced to \$6.40 for prime heavy and to \$6.20 for choice assorted light. The influences that put up prices a dollar a hundred during August are still in operation and the more sanguine of the bulls are now talking of \$7 as a price that is likely to be reached within the next few weeks. There was continued activity in the de-mand and ail of the 15,000 head received had changed hands at least once by the middle of the forenoon. From \$6@6.25 was paid for the bulk of the 200 to 350 pound hogs and \$5.90@6.15 were popular figures for lighter weights. A little poor stuff was weighed at \$5.75@5.85 and culls sold all the way down to \$4. The close was easy. The sheep and lambs markets opened active and firm, but the receipts proving larger than expected, a weaker feeling took possession. However, there was no quotable change, sheep selling on a basis of \$1@3.50 for poor to best, and lambs being salable at \$1.50@4.35. Good fat muttons were offered and most of the sales were below \$3.10. Receipts-Cattle, 5,500; calves, 1,000; hogs, 15,000; sheep, 10,000.
